## Short Description of this document

This document is meant to be an overall view of the interviews that we conducted for our assignment.

Here we state the questions asked in black and the answers given beneath that.

We have done 2 separate interviews.

The first one has been done through discord with Rohan, a close friend of Navisa and Damian. When we recorded the video through discord, the recording failed to capture live video. So I converted it into an mp3 file since the video wasn't working.

The second has been done through discord with Amalia, a friend of Sergio. This is an audio only file.

## Interview 1, Rohan from India

How old are you?

21

Where are you from?

India

Have you ever heard of Among us?

Yes, I played a lot of among us during the lockdown.

Are you still playing among us at the moment?

Not as much as I used to, sometimes with friends. Never alone

Did you play it a lot?

I played it even more than Fortnite.

Are there many people in India that play among us often?

Yes, almost all of my friends and classmates.

Have you told anyone you know about among us?

Yes, I mostly told girls since they don't know among us.

But when they tried playing they died quickly

Maybe girls aren't interested in playing games as much.

How did you hear about among us?

Through memes on Instagram. He heard people saying "this is sus" and "you're the imposter" but never knew what it meant. He saw it on google play as the top game so he downloaded it.

Do you remember the first match you ever played?

No, not really. I remember the last match though, I died quickly

Can you tell me about your overall experience while playing this game

I played it a lot when it got exciting, afterwards I expected some updates but they never came. So it got boring quickly. It's the most fun with friends.

Do you have any favorite tasks in the game?

Being the imposter.

Is there anything you would like to change about the game?

I would like to have more players at the same time in the game. So the player capacity has to be more.

## Interview 2, Amalia from the Netherlands

How was the last time you played?

January, it was the same as at the start. Had some bugs. So I only played it for a little bit.

Tell me a bit about your favorite moments

I got killed by an imposter who snuck through the vents in the second map.

Is this only for the second map?

No, the vent systems is in every map and I like them. Allows you to be sneaky.

Did you play the game often?

Yea, I played it quite often. I have 200/300 hours in it. I played it 2 weeks ago.

What can you tell me about your experiences when doing tasks?

The gas canisters is a lot of work and very annoying. Not having visuals on is quite aggravating. Favorite tasks is wiring, its satisfying. Most annoying part is getting killed during tasks.

Do you feel like the time duration is only for these specific tasks or also other tasks?

There's a bunch of other tasks that take long, like fixing the reactor.

Do you feel like that is something that affects your experience in the game

It doesn't when I'm innocent in the game doing tasks.

You mentioned earlier that some lobbies don't fill up properly, is this a recurring thing?

Yes, I've had it a couple times where I try to play with friends and then no one else joins which makes it not fun at all.

The game has public lobbies, what's your opinion on those? Do you enjoy those matches?

Yes I play those often since I don't always have friends that wish to play. You can meet random people. Its not always fun, some people can use vulgar language. The game itself is still enjoyable.

How do you feel about the communication that's available in the game? Like the chat?

I think they're good, but I'd love to see voice chat. It would be easier than typing.

Is there anything else you'd like to add regarding your experience while playing the game

I enjoy it a lot, if the lobbies would still fill up like they use to. I would be more eager to play it. The game died very quickly since the makers didn't update it often.

Is there anything else you'd like to add or change about the game

A feature to add friends you meet while playing. It would be fun to add someone you met in the game that you like playing with.
